

Page Corner Bookmark

Items you will need:

- Fibrous water soluble stabilizer
- Two 5" x 5" pieces of fabric
- 5" x 5" Light weight iron-on adhesive
- Tape

Wind the bobbin with coordinating thread.

1. Adhere the backs of the 5" x 5" fabric together with iron-on adhesive.
2. Hoop 2 pieces of the fibrous water soluble stabilizer.
3. Embroider and applique the design through the last outline stitch.
4. Remove the hoop from the machine.
5. Lay the hoop with the back up.
6. Lay the fabric over the last outline stitch.
7. Tape the edges of the fabric to the stabilizer, the fabric will stay in place.
8. Put the hoop on the machine, sew the tackdown stitches.
9. Remove the hoop from the machine and trim the fabric close to the tackdown stitches.
10. Embroider the last color.
11. Rinse the bookmark to dissolve the fibrous water soluble stabilizer.
12. Lay flat to dry.

Topper & Full Bookmarks

Items you will need:

- Fibrous water soluble stabilizer
- Scrap pieces of fabric
- Light weight iron-on adhesive
- Tape

Wind the bobbin with coordinating thread.

1. Adhere the backs of the fabric together with iron-on adhesive (size will vary).
2. Hoop 2 pieces of the fibrous water soluble stabilizer.
3. After each outline stitch lay the fabric over that area.
4. Sew the tackdown stitches.
5. Trim the fabric close to the tackdown stitches
6. Embroider the rest of the design.
7. Rinse the bookmark to dissolve the fibrous water soluble stabilizer.
8. Lay flat to dry.
