Instructions for the Lollipop Holders

Items you will need for this project:

Fibrous Water Soluble stabilizer

Note: The color changes listed after the last outline stitches will be visible on the back of the lollipop holder, so you will want to wind your bobbins with coordinating thread so the back is as pretty as the front of the lollipop holder.

1. Hoop two pieces of water soluble stabilizer.

- Embroider the design, following the color changes through the last outline color change, remove the hoop from the machine. Cut excess water soluble material.

Please note: The image shown is not included in the collection and is for demonstration purposes only.

- Add the Lollipop.

- Wash away excess stabilizer with water. Let dry and flatten design between two non-stick pieces of material and iron or heat press.

- Cut the buttonholes open for the lollipop with a sharp scissor.
