Instructions for Free Standing Designs

Things you will need:

- Water Soluble stabilizer
- Wax paper
- At least a 6 inch hoop
- Fabric Glue
- Bobbins that match the top threads
- Rhinestone Crystals (furnished)

General instructions to create free-standing pieces:

1. Hoop two pieces of water soluble stabilizer
2. Embroider free-standing designs for each pillow and remove from hoop.
3. Cut each design out of the stabilizer being careful not to cut the embroidery thread
4. Trim loose threads on back and sides of the designs.
5. Turn the faucet on low and wet the outside edges of each design. (If you get them all wet it won't hurt them)
6. Place them down on wax paper.
7. When the water soluble starts to dissolve, take each piece and use a paper towel to squeeze or pinch the edges to help remove the rest of the water soluble stabilizer.
8. Place back on the wax paper to dry.
9. The designs may want to curl so rotate and bend them as they are drying. Example: You can curl some of the flower pedals up a little bit so they stand out more or want the flowers to stay flat.
10. Give them 24 hours to dry before handling. If you want them flatter, place a piece of wax paper over top of them and use a heavy object to way them down for 24 hours.
