Create an Outfit and Accessories with Embroidery

With the Paisley designs you can create the look that works for you. You can stack for length, repeat for a border, layer for depth, and add freestanding designs as embellishments.

Choose the item(s) to embroider.

Find good quality fabric or garment(s) made with good quality fabric.

If it is an item (fabric) that may shrink, we strongly recommend that you wash and dry before you embroider.

Embroider as you sew your garment.

Open the lining seams to separate the lining from the jacket before you embroider.

Open the inseam to embroider pants.

Open the seam to embroider sleeves.

Wind a bobbin with the same thread and use fibrous water soluble stabilizer for collars, sleeves and any area that may expose the back of the embroidery.

When you embroider a purse or bag make sure that the embroidery area is free of buttons, snaps, zippers, etc.

Pick thread colors that coordinate with the outfit and accessories and use them in all the embroidery designs.

Always use a stabilizer. The weight and weave of the fabric makes the decision on the weight of the stabilizer.

Use a water soluble topping if the stitches will disappear on the fabric.

Get ready to embroider:

970372

Print the design(s); mark the center with horizontal and vertical lines.

Trim the paper close to the design.

Pin the design(s) on the garment to make sure they fit and you will have an idea how the finished project will look.

Hoop the area if possible, if not, hoop the stabilizer, spray the stabilizer with a fabric adhesive, and apply the fabric to the stabilizer.

Embroider the design. Remove the hoop. Carefully trim the stabilizer close to the design.

Assemble your garment.

Add your freestanding accents or embellishments.

Always use a pressing cloth when you iron your embroidery.

If you have trouble assembling your garment, use a seamstress (friend) to help you out.

For larger sewing fields, these designs have already been put together and saved under one sewing field. The designs can be found in the Accents folder on the CD.
