

GENERAL INFORMATION

Items you will need for all doilies:

Fibrous water soluble stabilizer
Threads of your choice
Tape, this will hold the doily piece in place for the tack down stitches.

You will also need these items for the applique doilies:
Fabric
Light weight Heat n Bond or fabric spray adhesive to adhere the backs of the fabric together.

Reminders:

Always use two pieces of fibrous water soluble stabilizer. The stitching needs the support to line up the embroidery design when it will be attached with stitches in the hoop.

Always wind the bobbin(s) with the same color thread that you are using for your top thread.

Adhere the backs of the fabric together for the applique areas. This will make the back of the doily as pretty as the front of the doily.

Always embroider the doilies that are pieced together in numerical order (part 1 first, part 2 second, etc.).

Doilies are hand-washable only.

INFORMATION REGARDING DOILY PLACEMENT AND APPLIQUE PLACEMENT

When the first color change is Outline and the second color change is Tack down this is for doily placement only. Any Outline and Tack down color changes after that are for applique placement.

For Appliqué

When the outline indicates appliqué placement, stitch the outline, lay the appliqué material over the outline stitches, then stitch the tackdown stitches, which will hold the fabric in place. Trim the fabric close to the tackdown stitches, then follow the remaining color changes to finish embroidering the design.

Do not wash away the stabilizer until the doily is complete.

1. Hoop two pieces of fibrous water soluble stabilizer.
2. Embroider the first piece of the doily.

3. Remove from hoop.
4. Trim away the stabilizer close to the stitches.

5. Hoop two pieces of fibrous water soluble stabilizer for the second piece of the doily.
6. Stitch the first color change, outline stitches. This will be the guideline where you need to lay doily piece's edge.

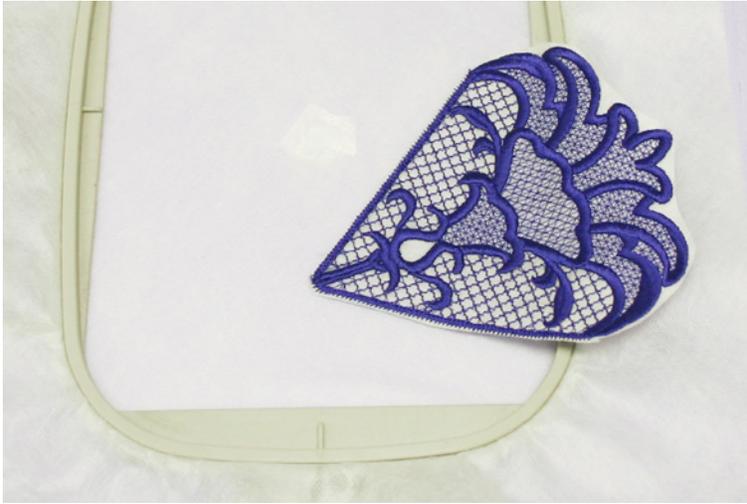

7. Tape the doily's edge in place.

970465 • Free Standing Lace Doilies • Project Instructions

8. Stitch the second color, tack down stitches.

9. Remove the tape.

10. Stitch the rest of the design. If there are remaining outline and tack down color changes in the design they are for the appliquéd area(s) of the design.

11. Remove from hoop.

12. Trim away the stabilizer close to the stitches.

13. Repeat instructions 5-12 until you get to the last piece of the doily. The last design will finish the open edges with a satin stitch.

14. Hoop two pieces of fibrous water soluble stabilizer for the last piece of the doily.

15. Stitch the first color change, outline stitches. This will be the guideline where you need to lay the doily's edges.

970465 • Free Standing Lace Doilies • Project Instructions

16. Tape all of the doily's edges in place.

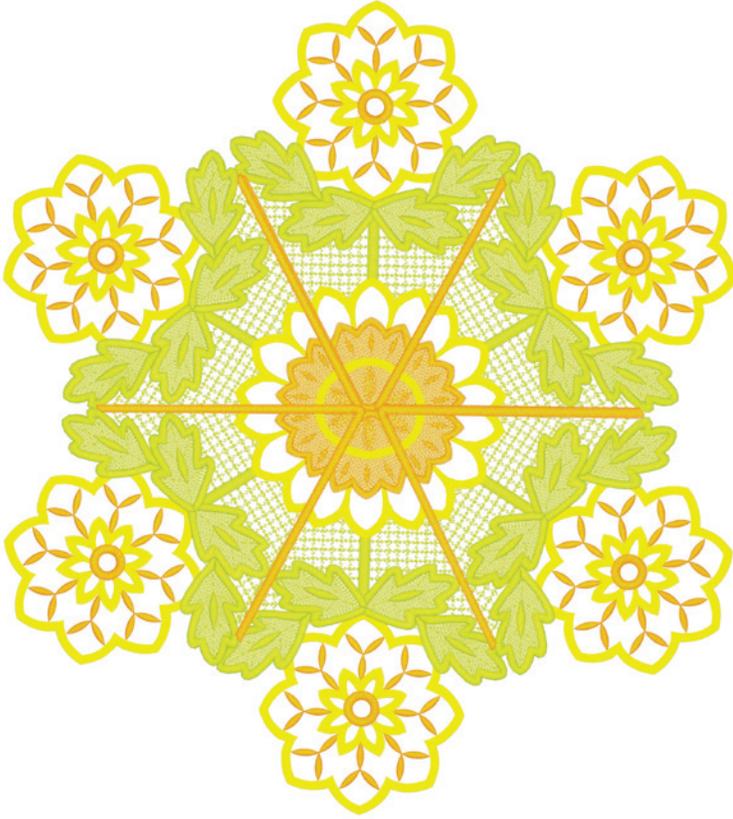

17. Stitch the second color, tack down stitches.
18. Remove the tape.
19. Stitch the rest of the design. If there are remaining outline and tack down color changes in the design they are for the appliquéd area(s) of the design.

20. Remove from hoop.
21. Trim away the stabilizer close to the stitches.

22. Gently rinse away the stabilizer following the manufacturer's instructions.
23. Lay flat to dry.

NFC0180 – NFC0185
Sunflower Appliqué Doily Instructions
 (please read General Guidelines first)

Items you will need:

- Fibrous water soluble stabilizer
- 1 Fat quarter of fabric cut in half for applique (adhere backs together using light-weight Heat N Bond or fabric spray adhesive)
- Iron-on or spray adhesive
- Thread colors of your choice

Note: Doily is pieced together clockwise
 Embroider the doily in order (part 1 first, part 2 second, etc.). Do not wash away the stabilizer until the doily is complete.

1. Wind the bobbin with matching embroidery thread.
2. Hoop two pieces of fibrous water soluble stabilizer.
3. Embroider NFC0180 the first piece of the doily. Apply applique fabric after the outline stitches, as indicated in the color-run sequence.
4. Remove from hoop.
5. Trim away the stabilizer close to the stitches. Lay to the side.
6. Hoop two pieces of fibrous water soluble stabilizer.
7. Stitch the first color change of NFC0181, the outline stitches. This is the guideline where you will lay the left edge of NFC0180 (part 1).

8. Tape the doily's edge in place, lining it up with the guideline.
9. Stitch the second color, tack down stitches.
10. Remove the tape.
11. Stitch the rest of the design. Apply applique fabric after the outline stitches, as indicated in the color-run sequence.
12. Remove from hoop.
13. Trim away the stabilizer close to the stitches.
14. Repeat steps 6-13 for parts 2, 3, 4, and 5.
15. Hoop two pieces of fibrous water soluble stabilizer. Stitch the first color change, the outline stitches, of NFC0185 (this is part 6 to finish the open edges with a satin stitch).
16. Tape both edges of the doily on the outline/guideline stitches.
17. Stitch the second color change, tackdown stitches.
18. Remove the tape.
19. Stitch the rest of design. Apply applique fabric after the outline stitches, as indicated in the color-run sequence.
20. Remove from hoop.
21. Trim away the stabilizer close to the stitches.
22. Gently rinse away the stabilizer following the manufacturer's instructions.
23. Lay flat to dry.

NFC0154 Doily Instructions

Items you will need:

Fibrous water soluble stabilizer
Thread color of your choice

1. Wind the bobbin with matching embroidery thread.
2. Hoop two pieces of fibrous water soluble stabilizer.
3. Embroider the design.
4. Remove from the hoop.
5. Trim away the stabilizer close to the stitches.
6. Gently rinse away the stabilizer following the manufacturer's instructions.
7. Lay flat to dry.

NFC0156 – NFC0160 Floral Doily Instructions

(please read General Guidelines first)

Items you will need

Fibrous water soluble stabilizer

Thread(s) of your choice

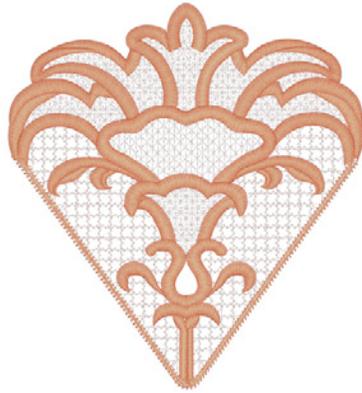

Tape

Note: Doily is pieced together clockwise

Embroider the doily in order (part 1 first, part 2 second, etc.). Do not wash away the stabilizer until the doily is complete

1. Wind the bobbin with matching embroidery thread.
2. Hoop two pieces of fibrous water soluble stabilizer.
3. Embroider NFC0156 the first piece of the doily.
4. Remove from hoop.
5. Trim away the stabilizer close to the stitches. Lay to the side.
6. Hoop two pieces of fibrous water soluble stabilizer.
7. Stitch the first color change of NFC0157, the outline stitches. This will be the guideline where you need to lay NFC0156 left edge.
8. Tape the doily's edge in place.
9. Stitch the second color, tack down stitches.
10. Remove the tape.
11. Stitch the rest of the design.
12. Remove from hoop.

13. Trim away the stabilizer close to the stitches.
14. Repeat steps 6-13 for NFC0158 and NFC0159
15. Hoop two pieces of fibrous water soluble stabilizer. Stitch the first color change, the outline stitches, of NFC0160 (this is part 5 to finish the open edges with a satin stitch).
16. Tape both edges of the doily on the outline/guideline stitches.
17. Stitch the second color change, tackdown stitches.
18. Remove the tape.
19. Stitch the rest of design.
20. Remove from hoop.
21. Trim away the stabilizer close to the stitches.
22. Gently rinse away the stabilizer following the manufacturer's instructions.
23. Lay flat to dry.

NFC0186 – NFC0188
Rose Doily with Applique Instructions
 (please read General Guidelines first)

Items you will need

- Fibrous water soluble stabilizer
- Thread(s) of your choice
- Applique Fabric (adhere backs together using light-weight Heat N Bond or fabric spray adhesive)
- Tape

Note: Doily is pieced together counter-clockwise
 Embroider the doily in order (part 1 first, part 2 second, etc.). Do not wash away the stabilizer until the doily is complete.

1. Wind the bobbin with matching embroidery thread.
2. Hoop two pieces of fibrous water soluble stabilizer.
3. Embroider NFC0186 the first piece of the doily. Apply applique fabric after the outline stitches, as indicated in the color-run sequence.
4. Remove from hoop.
5. Trim away the stabilizer close to the stitches. Lay to the side.
6. Hoop two pieces of fibrous water soluble stabilizer.
7. Stitch the first color change of NFC0187, the outline stitches. This is the guideline where you will lay the right edge of NFC0186 (part 1).
8. Tape the doily's edge in place, lining it up with the guideline.
9. Stitch the second color, tack down stitches.
10. Remove the tape.
11. Stitch the rest of the design. Apply applique fabric after the outline stitches, as indicated in the color-run sequence.
12. Remove from hoop.
13. Trim away the stabilizer close to the stitches.
14. Repeat steps 6-13 three more times.
15. Hoop two pieces of fibrous water soluble stabilizer. Stitch the first color change, the outline stitches, of NFC0188 (this is part 6 to finish the open edges with a satin stitch).
16. Tape both edges of the doily on the outline/guideline stitches.
17. Stitch the second color change, tackdown stitches.
18. Remove the tape.
19. Stitch the rest of design. Apply applique fabric after the outline stitches, as indicated in the color-run sequence.
20. Remove from hoop.
21. Trim away the stabilizer close to the stitches.
22. Gently rinse away the stabilizer following the manufacturer's instructions.
23. Lay flat to dry.
